

Do you need help with BEADS?

Where do I buy them? How many should I get? What kind?

What about shipping? What do they cost?

If you have a good source for beads and other throws, that's great. However, if you don't want to hassle with rounding up beads, getting them shipped, storing them, and that kind of thing, we can help.

The beads we will have available are a mix of styles, from 33" to 48" long. Our Krewe members will throw 1 -2 cases in our parade, but some folks will throw only a few dozen.....depends on how you pace yourself.

If you want us to get your beads for you, we will. The catch is that you'll need to send in your *paid order with your parade registration*. Just fill in what you want on the registration form. Obviously, we don't have an unlimited number, so it's first ordered, first served. Hopefully, we will have enough to go around and make everyone happy, and no matter what, we'll let you know if we run out WAY ahead of time.

The cost to you is \$60 per case, including tax. Your beads will be set aside specifically for you and will be waiting for you when you check in for the parade.
